Speaker function

- 1. Ensure the sofa is plugged in and powered on at a mains socket.
- When powered on at the socket for the first time, the sofa defaults to "off".
 Long press the button for 3 seconds to turn it on; you will hear a voice prompt that says: "Power on".
 The device will enter Bluetooth searching mode automatically, and the blue indicator will flash.
- To connect the sofa to your mobile phone, ensure the sofa is in Bluetooth searching mode, then open the Bluetooth menu in the settings on your device and look for the name: Smart sofa 01A.
- 4. Click this name in your device to pair to the sofa. Once paired successfully, the Bluetooth indicator will stay blue, and you will hear a voice prompt that says: "Bluetooth connected". (If Bluetooth is not connected within 30 seconds, the blue indicator will stay blue). If you wish to connect the sofa to a different Bluetooth device, such as a TV, the same procedure applies. Simply go to the device's settings menu and look for: **Smart sofa 01A**.

Note: Devices operating with Bluetooth version 5.3 and below can be connected. Sofa functions available for use may vary depending on the specific device settings/ capabilities.

The Bluetooth broadcast indicator light will flash when turned on. If a device is not connected within 30 seconds, the light will turn a steady blue. Once a device is connected, it stays steady immediately. After 30 seconds, this light will remain steady whether a device is connected to the sofa or not.

- You can now play content on your device and the audio will play through the sofa. You can control play/pause, previous track, next track, volume up, and volume down on your device or via the smart console on the sofa.
- 6. Tap \circlearrowleft to pause your content, tap again to play.
- 7. Tap **K** to play the previous track.
- 8. Tap **M** to play the next track.
- Tap ◄») to increase the volume by one level. Long press ◄») to continuously increase the volume. When the
 volume reaches maximum level, you will hear a beeping sound.
- 10. Tap 🜓 to decrease the volume by one level. Long press 🜓 to keep decreasing through to mute mode.

- 13. Long press 🔻 for 3 seconds to disconnect your Bluetooth device; you will hear a voice prompt that says: "Bluetooth Disconnected". You will need to reconnect your device again to play content through the sofa.
- 14. Long press the 🖒 button for 3 seconds to turn the smart console off.

Console cup holder opening/closing function and lock button function

- 1. Long press \bigcirc for 3 seconds to turn the smart console on.
- 2. Tap 🗖 to open the left-side console cup holder. You will hear a voice prompt that says: "Open". Tap 🗖 again to pause the cup holder motion. Tap 🗖 a third time to retract the left-side cup holder. You will hear a voice prompt that says: "Close".
- 3. Tap 🗖 to open the right-side console cup holder. You will hear a voice prompt that says: "Open". Tap 🗖 again to pause the cup holder motion. Tap 🗖 a third time to retract the right-side cup holder. You will hear a voice prompt that says: "Close".
- 4. Long press (a) for 3 seconds to lock the smart console functions. The indicator light will turn red and the buttons will not respond when pressed. Long press (a) for 3 seconds again to unlock. The smart console will then operate as normal.

Charging function

- 1. Long press \bigcirc for 3 seconds to turn the smart console on.
- 2. Tap 🗖 to open the left-side console cup holder. You will hear a voice prompt that says: "Open". Tap 🗖 again to pause the cup holder motion. Tap 🗖 a third time to retract the left-side cup holder. You will hear a voice prompt that says: "Close".
- 3. Tap to open the right-side console cup holder. You will hear a voice prompt that says: "Open". Tap again to pause the cup holder motion. Tap a third time to retract the right-side cup holder. You will hear a voice prompt that says: "Close".
- 4. Long press (a) for 3 seconds to lock the smart console functions. The indicator light will turn red and the buttons will not respond when pressed. Long press (a) for 3 seconds again to unlock. The smart console will then operate as normal.

Product parameters

Power input	DC29V3A
Speaker output	5W*4
Vibration head output	15W
USB output	Maximum 18W
Wireless charging pad	Maximum 10W
Bluetooth edition	5.3

Troubleshooting

The sofa may not be connected to power. Solution: One or more cables may be disconnected or the plug not fully inserted into the wall. Check all cable and plug connections then try to power on again. If all cable connections are correct and power is available, there may be a device malfunction. Solution: Contact Sofology for further help and support. The speaker connection wire may be disconnected. Solution: Check all wiring or reconnect. Volume may be muted. Solution: Long press the volume *¹ button to increase volume. There may be device interference. Solution: Tap (*¹) to resume playback. The speaker connection wire may be disconnected. Solution: Check all wiring or reconnect. Volume may be muted. Solution: Long press the volume *¹ button to increase volume. There may be device interference. Solution: Remove any other devices or potential interference sources. Power off the smart console, then restart after 15 seconds of power-off. Improper operation could be causing the device to freeze. Solution: Power off the smart console, then restart after 15 seconds of power-off. Check for loose connections. Solution: Check all cable connections and reconnect if necessary.
